EXECUTIVE SUMMARY

Hereafter is described a concise overview of the Sanofi Quality Management System structure, aligned our Company objective of focus and simplification.

The Sanofi Quality Management System is elaborated on the fundamentals delineated in our Company Global Quality Policy revised in September 2019.

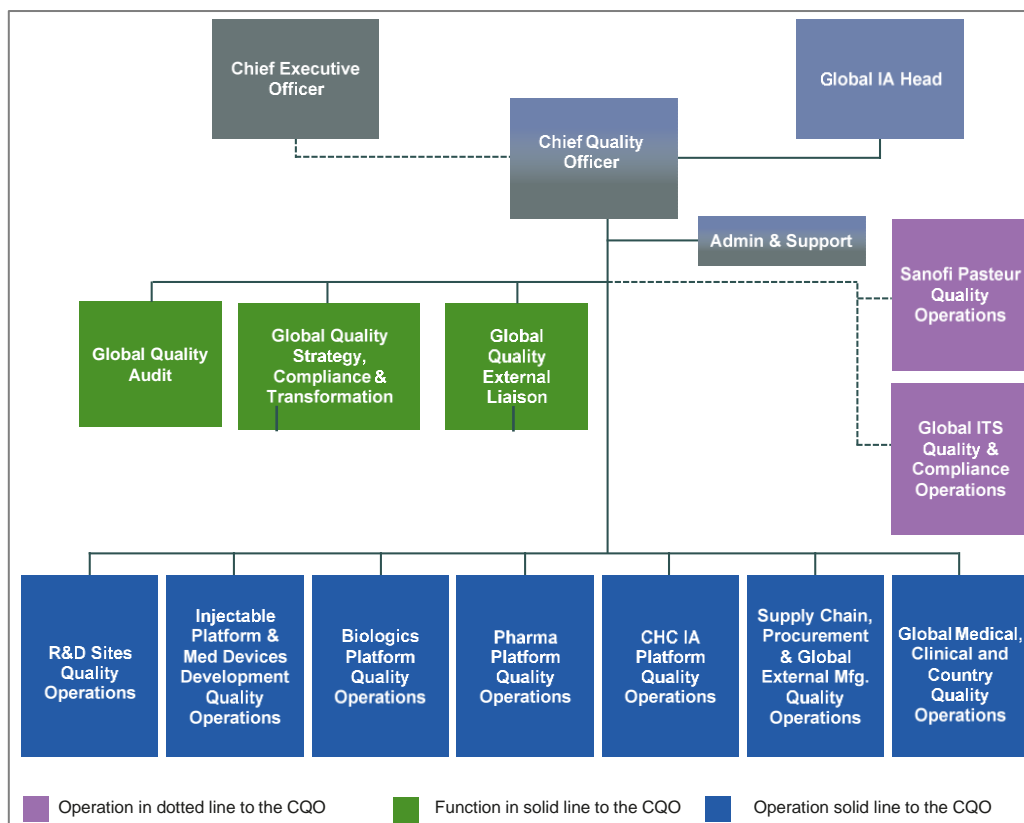

TABLE OF CONTENTS

- 1.1. Commitment3
- 1.2. Quality Organization3
- 1.3. Quality Management System.....3
- 1.4. Sanofi Quality Policy.....4
- 1.5. Sanofi Quality Manual5
- 1.6. Abbreviations and Acronyms.....5

1.1. Commitment

Quality commitment to patients leads Sanofi to provide safe and effective products and services throughout the world that are developed, manufactured, distributed and marketed in compliance with the regulatory requirements and our Company values: integrity, courage, respect and teamwork.

1.2. Quality Organization

The Sanofi Chief Quality Officer is directly responsible to the Chief Executive Officer for defining the Sanofi Quality Policy, coordinating its implementation across the relevant Sanofi entities and ensuring compliance with the related regulatory and Company requirements. The Sanofi Chief Quality Officer is the representative of the Sanofi Senior Management for quality related matters.

The Sanofi Chief Quality Officer reports operationally to the Executive Vice President of Global Industrial Affairs, and is a core team member of the Sanofi Global Industrial Affairs Council, the Sanofi Global Risk Committee and the Sanofi Global Compliance Committee.

1.3. Quality Management System

The Sanofi Quality Management System (QMS) framework and principles are fully aligned with the ICH Quality Guideline Q10 on Pharmaceutical Quality System.

The Sanofi QMS is intended to ensure that Sanofi products and services satisfy the expectations of our patients, customers and other public health needs, in full compliance with applicable GxP regulations (GCP, GDP, GLP, GCLP, GMP, GRP & GVP) and other health-related requirements.

This is One Quality System that applies to all types of Sanofi products and services throughout their life-cycle from research to development, manufacturing, distribution and discontinuation for established and innovative products. It is operated in a flexible and adaptable model to include quality standards specific to each profile class of the Sanofi product portfolio. It is constantly evolving to ensure continuous improvement and anticipate regulatory developments, to support the needs of our Global Business Units and Global Functions<s.

At each site involved in research & development, manufacturing and distribution activities, or at each country commercial office within Sanofi, a Quality Head or Manager is appointed to define, implement, manage and control the Quality Management Systems, in order to ensure the quality of products and services, and to guarantee compliance with applicable regulatory requirements and the Sanofi QMS.

1.4. Sanofi Quality Policy

The Sanofi Quality Policy signed by Paul Hudson and Philippe Germanaud, respectively Chief Executive Officer and Chief Quality Officer delineates the fundamentals and gives the vision of what Quality is for Sanofi people, products and services, for the benefit of our patients and customers.
