Terms not defined in this press release will have the meaning as set forth in the Offer Memorandum.*

## Sanofi completes Kiadis acquisition

April 16, 2021

Sanofi and Kiadis announce today the successful completion of Sanofi's acquisition of Kiadis, a clinical-stage biopharmaceutical company developing next generation, 'off-the-shelf', NK cell-therapies.

Kiadis' proprietary platform is based on allogeneic or 'off-the-shelf' NK-cells from a healthy donor. NK-cells seek and identify malignant cancer cells and have broad application across various tumor types. The platform has the potential to make products rapidly and economically available for a broad patient population across a wide range of liquid and solid tumors, and create synergies with Sanofi's immuno-oncology pipeline.

Kiadis' NK cell-based medicines will be developed alone and in combination with Sanofi's existing pipeline and platforms.

The acquisition continues to build on Sanofi's emerging presence in immuno-oncology aligned with the company's strategy to pursue best-in-class treatments in defined areas.

As of the Settlement, which has taken place today, Sanofi holds approximately 95.03% of the issued and outstanding share capital of Kiadis on a Fully Diluted basis.

Shareholders who have not yet tendered their Shares will have the opportunity to tender their Shares under the same terms and conditions applicable to the Offer, during the Post-Closing Acceptance Period which started on 14 April 2021 and will end at 17:40 (CET) on 28 April 2021. Sanofi intends to initiate the Buy-Out procedure in an expeditious manner. Reference is made to the joint press release by Sanofi and Kiadis dated 13 April 2021.

Upon Settlement the changes to the composition of the Supervisory Board and Management Board of Kiadis, as approved by the EGM on 30 March 2021, will become effective.

### Sanofi Forward-Looking Statements

*This press release contains forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995, as amended. Forward-looking statements are statements that are not historical facts. These statements include projections and estimates and their underlying assumptions, statements regarding plans, objectives, intentions and expectations with respect to future financial results, events, operations, services, product development and potential, and statements regarding future performance. Forward-looking statements are generally identified by the words “expects”, “anticipates”, “believes”, “intends”, “estimates”, “plans” and similar expressions. Although Sanofi’s management believes that the expectations reflected in such forward-looking statements are reasonable, investors are cautioned that forward-looking information and statements are subject to various risks and uncertainties, many of which are difficult to predict and generally beyond the control of Sanofi, that could cause actual results and developments to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include among other things, the uncertainties inherent in research and development, future clinical data and analysis, including post marketing, decisions by regulatory authorities, such as the FDA or the EMA, regarding whether and when to approve any drug, device or biological application that may be filed for any such product candidates as well as their decisions regarding labelling and other matters that could affect the availability or commercial potential of such product candidates, the fact that product candidates if approved may not be commercially successful, the future approval and commercial success of therapeutic alternatives, Sanofi’s ability to benefit from external growth opportunities, to complete related transactions and/or obtain regulatory clearances, risks associated with intellectual property and any related pending or future litigation and the ultimate outcome of such litigation, trends in exchange rates and prevailing interest rates, volatile economic and market conditions, cost containment initiatives and subsequent changes thereto, and the impact that COVID-19 will have on us, our customers, suppliers, vendors, and other business partners, and the financial condition of any one of them, as well as on our employees and on the global economy as a whole. Any material effect of COVID-19 on any of the foregoing could also adversely impact us. This situation is changing rapidly and additional impacts may arise of which we are not currently aware and may exacerbate other previously identified risks. The risks and uncertainties also include the uncertainties discussed or identified in the public filings with the SEC and the AMF made by Sanofi, including those listed under “Risk Factors” and “Cautionary Statement Regarding Forward-Looking Statements” in Sanofi’s annual report on Form 20-F for the year ended December 31, 2020. Other than as required by applicable law, Sanofi does not undertake any obligation to update or revise any forward-looking information or statements.*
